#### THE LESSON.

It is painfully apparent that the course pursued by Conkling and his followers had much to do in disrupting the Republican party in New York and causing the overwhelming defeat of the party in that State. The people are tired of being dictated to at each recurwing election by a clique of corrupt politicians and have said in language that cannot be misunderstood, that bossism will be tolerated no longer. What is true of New York is equally true in Pennsylvania, Ohio, Indiana and other States. Let no one be deceived into the belief that the Democratic victories in the East are due to the fact that Republicans have undergone a change of heart and become converted to Democtacy. Not so! The heart of the American people still beats in unison with the ideas and principles of true Repubdicanism, and the result of the elections in the East is but a determined effort on of voting with the Democracy in order Affairs. to punish a venal and corrupt element in their own ranks. Republicans have deemed this necessary, and it is well for the country that this grand housecleaning should have taken place in an off year-in vacation, as it were. In 1884 the grand old party will come to the front, purified and uninfluenced by of the county of San Mateo, California, selfish and ambitious leaders, guided aby pure hearts and clean hands, and march forward to a grand and glorious wictory.

#### EDITORIAL NOTES.

There is an excellent chance for a large sized row in Europe, growing out and Russia are both fortifying frontiers precise reason. It is just possible that land's occupation of Egypt, and, if so, and Turkey.

land, the Democratic nominee for Governor, and now that Clevetand is elected by a prodigious majority the old gentleman feels that he is still on top and must be looked upon as a great leader in political as well as moral ideas.

A dispatch from Durban says that two battalions of Transvaal Boers have had an engagement with Mapoch, a Kaffir chief, and were defeated. Mapoch feigned to retreat, and drew the Boers into ambush, killing three hundred. The Boers are going to be beaten by the Kaffirs and will have to appeal to England to help them, as before. The Boers try to enslave and do enslave the Kaffirs. Hence the wars.

An earthquake shock was experienced at Laramie City, Wy., at 6:30 Tuesday evening, and was felt plainly along the line of the Union Pacific railway west as far as Evanston. The plastering fell off in buildings as far as Rawlins, Point of Rocks and other points. Trains will be sont west with great care, as bridges may have been thrown out of

# The Anarchist Agitation.

A large meeting of shoemakers and other workmen at New Bau, a suburb of Vienna, was held Tuesday. The police interfered and dispersed the meeting. The mob then stormed and destroyed the police station, and during the collision twenty workmen and a number of the police were injured. Many arrests were made after the troops, who had been summoned, had restored order.

## Massachusetts Independents.

The leaders of the Independent Republican 'movement held their lovefeast at the Revere House in Boston yesterday. The vote of Tuesday was delared to mean the approaching creation of a new dominant party, and a committee of five was appointed to reorganize the Independent Republican movement in Massachusetts and to establish it on a permanent basis.

#### FLASHES

Lord Dufferin arrived in Alexandria Tuesday and proceeded to Cairo by a special train. British and Egyptian officials were united in receiving him.

At Santa Barbara Sunday morning the two-year-old son of D. M. Whitford was standing in front of the fire, when his clothes ignited and the little fellow was so seriously burned that he died from the effects this morning.

A distressing accident occurred about three miles from Visalia Sunday, by which James S. Edwards, aged six years, son of E. J. Edwards, District Attorney, lost his life. The father was hunting, accompanied by his son, and by some means his gun was discharged, the shot striking the boy and inflicting a fatal wound, from which he died.

In the House of Commons Tuesday the Attorney-General, in answer to a question, stated that he was still doubtful whether Westgate's confession of complicity in the Phoenix Park murders was true. The evidence to indentify him had been sent to Jamaica and inquiries were proceeding to ascertain the truth of his statements.

A coalition party is forming in Paris, with Gambetta, Ferry and Duclere as the part of the people to rid the party of the leaders, with a common programme honest men. The Democracy has won | Coahtion party carrying a majority in a temporary victory, not because it the Chamber of Deputies, Ferry will be earned or deserved it, but because Re- elected President of the Council, Dupublicans were driven to the necessity clere continuing as Minister of Foreign the arbitrament of war.

#### Railroad Taxes in the United States Supreme Court.

In the Supreme Court of the United States a motion was submitted on Monday to advance on the calendar the case against the Central Pacific Railroad Company. This was an action brought for the recovery of taxes assessed upon that part of value of the defendant's railroad which was apportioned to San by the State Board of Equalization. It is a test case, and the decision of this Court therein will directly affect fortyof the Egyptian troubles. ## Ingersoll's View

In an interview on the political situation Col. Robert G. Ingersoll was Cease trying to be a ward politician calculated two trying to be a ward politician and the Executive of the nation at the asked: "What caused this great politican reaction?"

Mr. Ingersoll said: "First—Extravato reduce taxation. Twenty million dollars should have been taken from the sugar interest. The Republican party should have taken such steps. All internal taxation could within one year from now be abolished. Third-Republicans should not have postponed the tariff reform. The Tariff Commission was a mistake. Fourth-Prominent Republicans have been trying to kill each other. The great struggle has been for office. We have too many politicians and not enough statesmen. The fight of the bosses against Cornell is unfortunate. Pennsylvania is tired

of the same rule." "What will be the effect upon the Presidential contest in 1884?"

"It looks to me now as if General Sherman will be the next President. He is the only man that I know of that the Stalwarts, Balf-broads, Reformers and Civil Service gentlemen can all unite on as a soldier and a statesman."

Lynch Law in Louisiana. The jail at Vienna, Louisians, was opened Tuesday night by a posse of men supposed to be from Johnson parish, compelling the jailor to open the first door, and breaking their way thence to the prisoners they wanted. Four were carried from the jail who had been brought there from Jackson parish for safe keeping. One of them made his escape immediately upon reaching the jail door. He was fired at three or four times without effect. Another, it is thought, was given a chance for his life, as he was thought innocent. The other two were found Tuesday morning about a mile and a half south of Vienna, dead and riddled with bullets. The negroes were charged with the robbing and attempted murder of an old white gentleman named Ray. He described them and identified them, and the matter

created much excitement there.

#### War Rumblings in Europe.

A cablegram from Berlin says: The Minister of War has ordered the Baltic forts'to be extended and strengthened at once and has directed the construction of earthworks and batteries to protect the harbor of Memel, at the north end of Curschehoff, near the extremity of the German Empire; the erection of strong earthworks to defend the harbor of Pillau at the entrance of Trischehoff, and the extension and completion of fortifications in Northern Prussia, especially those at Posen, are ordered. An explanation of this action of the German military authorities may be found in the repeated warnings received from the Russian Embassy at St. Petersburg, as well as from unofficial sources, reporting the rapid growth of the warlike policy in Russia. The recent heavy concentration of troops on the Russian frontier causes serious apprehension here and at Vienna, as it is believed to foreshadow a design on the part of Russia to embark in some new adventure. Some of the members of the general staff entertain rather startling theories on this subject. The restrictive tariff has seriously affected trade in the Baltic provinces. Much traffic has been diverted to the Russian open ports. Several German towns have suffered considerable loss of popu an incubus that was rapidly making and with a strong anti-English policy in lation from this cause. Discontent American politics odious in the eyes of Egyptian affairs. In the event of the among the agricultural and trading classes is widespread. Whatever the Russian intentions may be, Germany will be found ready at all points, should their ill-concealed antagonism come to

#### Trouble in Hawaii.

The dispatches received by the Secretary of the Navy Monday from the commander of the United States ship Alaska at Honolulu report a serious state of affairs there, growing out of dissatisfaction among sugar planters. The planters have formed a protective union and made a protest to the King against the selection of his Cabinet. They urge a more liberal and progressive policy than indicated by the King's movements. The King, in reply, recognized Matec county, in the fiscal year 1881-82 the right of all to make suggestions if entertained of any grievance, and assured the members of the Union that their appeal would be considered. Meantime there has been no change in the situation, and the King has issued a proclamation that he would be crowned on February 12th. The report fur her says that the matter will probably drift along until coronation day, when indi-cations point to a disturbance. Unless the alleged evil is remedied complaints of members of the Union will be general. The policy of the Government is not sufficiently liberal and they urge better opportunity for bringing in labor and adoption of a course to insure the continuation of the reciprosity treaty with the United States, which is ac-knowledged to have added so largely to the wealth of the islands.

## ARTHUR AND CONKLING

upon the Republican defeat in New OF THE WASHOE SALOON, HAS NOW York says.

The Republican party's message to President Arthur reads something like this: "Mind your own business, which is not that of interfering on the local politics of your own or any other State. same time. Leave men like John J. O'Brien, Stephen B. French and John F. Smyth to their con devices. Try to gant appropriations. Second-Refusal expand your political vision beyond the area to which you have been accustomed to confine it. You are not ignorant of the rudiments of statesmanship; advance beyond them and confide in the people rather than in the politicians. Be assured that when you intrigued to foist the claims of Roscoe-Conkling on his disgusted constituents you made a most fatal blunder; that when you humbly tried to console him under defeat with a Judgeship of the Supreme Court you insulted public intelligence; that when you lent yourself to the work of his revenge, and that of his master Gould, against Governor Cornell you aroused the indignation of every thinking man in this State and sowed distrust of your administration wherever honesty and manliness are reckoned among the political virtues. Have a mind of your own and be a President of a nation, not of a narrow and vindictive faction of your own party. The county may be brought to admire Chester A. Arthur as he may be. It has emphatically con-demned Chester A. Arthur as he is.

To Roscoe Conking also, albeit a private citizen, "altogether out of politics and wholly devoted to the practice of law," the Republican party of this State has had something to say. less: "If you have any sense of gratitude for the honors which the party has showered on you in the past, take your hands off its organization for the future. Nobody expects you to admit that you have grossly abused the trust reposed in you, but everybedy who has not a handful of personals and who is not blinded by prejudice or self-interest demands that you should recognize the fact that you have had your day and that the only service left for you to per-form to your party is that of letting your henchmen understand that you have nothing more to give them or to ask from them. With the character of your clients the public have nothing to do, but Republicans who retain some admiration for you, as well as those who never had any, have some right to expect that you shall earn your fees by means less shameful than that of picking a State Convention to serve the purposes of Jay Gould. If you have not self-respect enough to restrain you from intruding where you are not wanted, have at least dignity and common sense enough to keep your griefs and ambi-tions to yourself until your name becomes less intimately associated with

demoralization and disaster."

# Native Potatoes.

The San Francisco Academy of Sciances met last Monday evening. J. G. Remmon, who spent six months on the Mexican frontier, announced that he had brought up five boxes of new plants and two or three kinds of new potatoes, some of which were growing on a peak 10,000 feet high. This was regarded as an important discovery, which might abrow some light on the nativity of the potato as a mountain plant. It has been found here on the Pacific Const the finest potatoes are produced in elevated regions; as in the valleys lying from three to nine thousand feet above the sea level.

## Card of Thanks.

To the many kind friends and acmaintances who extended their comfort and assistance during the sad days of the illness and burial of my niece, Miss Annie Harnett, I return' my most menrifelt thanks. They shall ever be Miss M. A. Harney.

#### PERSONALS.

Mrs. R. H. Lindsay is visiting friends in Virginia City.

Red-hoss Thompson will assume charge of our public highways on and after the first day of January.

F. F. Osbiston, formerly a prominent Comstock miner, has been elected a Republican Assemblyman in Colorado.

Capt. Matt Cannavan is able to be out on the streets. He attended a 'meeting of the Democratic State Central Committee yesterday.

G. R. Woods, general traveling agent for the Singer Sewing Machine Company, came up from the Bay Tuesday morning. He will remain here a day or two and then leave on a trip through Idaho and Montana.

Mrs. J. C. Bailey, the only daughter of George T. Marye, the Virginia City banker, died at the Presidio, San Franrisco, Tuesday afternoon. Mrs. Bailey was the wife of Surgeon J. C. Bailey, of the United States army, and has been an invalid for many years.

Our worthy townsman Hon. Wm. M. Boardman, has reason to feel proud of the very flattering vote he received Tuesday for the important position of The Piutes will meet in convention at District Judge of this county. His majority in the county will exceed 400, and he had for an opponent a very worthy gentleman and an upright Judge.

> Rev. Father Nugent is prostrate with a second attack of pneumonia. Ever since his first attack last Winter, the Father has never been so strong and the late storm and change of weather did him injury. It is the candid opinion of many of his parishioners that Father Nugent in his zeal too needlessly exposed himself. They claim that his priestly duties are sufficiently burdensome without taking on his shoulders extra labor which his health is not capable of sustaining.

He was walking at a rapid pace and but for the umbrella would have snapped his leg like a pipestem. This same hole has been open quite a while. It is caused by the cover rotting or breaking off one of the boxes used by the water company to reach the stopcook of the street main. As a result, there is an unprotected cavity, nearly six feet deep, into which greatest of ease. The matter should be looked after immediately by the city, if the water company further neglects it, as it may thereby save Reno from an 56 expensive suit and damages. ## Weather Predictions.

Vennor, the weather prophet, predicts as follows: "November may bring a return of open and calmer weather in its fore portion, but the latter part of that month promises to be again stormy and very cold in the northwest and portions of the northern and central divisions of the United States. There is likely to be a cold wave of considerable intensity over the western and northwestern sections of both Canada and the United States towards the close of the month or entry of December."

## The Result.

Although the returns from the State are not all in, it is known that the entire Republican ticket is elected, with the exception of Governor and Congressman. This is conceded by the is the prescription of one of the oldest and best Democrats. In the next Legislature the Republicans will have from twelve to fifteen on joint ballot, which insures the election of a Republican to the Wardenship of the State Prison.

In Ormsby county the straight Republican ticket is elected by a handsome majority, with the exception of Clerk, which is a tie.

## Now is Your Chance.

Miss M. A. Harney is selling out her entire stock at reduced rates. She ascordingly invites all the ladies to come and examine her stock and assures them they may obtain all millinery and fancy goods at a great bargain, as she must dispose of her present stock.
